

Exercise #7

```
def main():
    winner = None
    while winner == None:
        print("Rock, paper, scissors!")
        p1_choice = get_player_input(1)
        p2_choice = get_player_input(2)
        winner = determine_winner(p1_choice, p2_choice)
        if winner == None:
            print("It's a tie!")
    print("Player "+str(winner)+" won!")
```
